

RIT CLEAN SNOWMOBILE NEWSLETTER

March 2023

EBOARD ELECTIONS:

Annually, during late March or early April, our team conducts elections to choose the new Eboard for the upcoming competition season. In the present year, eight individuals contended for different Eboard roles, resulting in a highly competitive election. Each member delivered an excellent speech, and elections proceeded smoothly.

Introducing our Eboard for the 2023-2024 competition season, we have:

Team Manager: Elaine Greenfield, 5th year Electrical Engineering

Project Manager: Michael Gublo, 3rd year Civil Engineering Technology

Treasurer: Paxton Diaz, 4th year Mechatronics

Secretary: Morgan Samson, 3rd year Packaging Science

Public Relations: Evan Palmer-Foley, 3rd year Mechanical Engineering

From Left to Right Elaine Greenfield, Michael Gublo, Paxton Diaz, Morgan Samson, Evan Palmer-Foley

TEAM AFFAIRS

Our team has been extremely busy with various projects and affairs since returning from competition. To kickstart our preparations for the 2023-2024 competition season, the team organized a project proposal forum in early March. During this forum, all members of the team gathered together to collaborate and discuss ideas for potential projects to undertake. This event was a first for our team, and it proved to be a tremendous success, drawing great enthusiasm and engagement from all members.

As part of our team's ongoing efforts to maintain a well-organized and efficient workspace, we recently completed a thorough cleaning of our shop. This involved going through every shelf and item that we owned, and deciding what should be kept and what should be discarded. The result was a massive amount of scrap, weighing over 1000 pounds, that was removed from our shop. This exercise not only cleared up space, but also made our workspace more organized and easier to navigate.

On March 25th, our team held elections for the new Eboard that will lead us through the upcoming competition season. With eight candidates running for different positions, the race was very close and exciting. The election process proceeded smoothly, with each candidate delivering a fantastic speech. Ultimately, the newly elected Eboard for the 2023-2024 competition season was chosen, and we look forward to working with them to achieve great success.
