

RIT CLEAN SNOWMOBILE NEWSLETTER

November 2022

TEAM PHOTOS:

TEAM AFFAIRS

The RIT Clean Snowmobile Team hopes you all had a wonderful and filling Thanksgiving! After a quick poll, we have discovered the favorite Thanksgiving food item on the team is stuffing! Now, there remains about a week and a half of classes left. Beyond that, we will be entering a time all students dread... final's week. Meanwhile, this time is also our crunch time to complete our projects before the end of the semester. We have implemented "Shop Fridays" as well as having our normal "Shop Saturdays" to complete deadlines. The team has certainly been hard at work finishing projects and beginning sections of our technical paper. Our final official shop day will be used as well to present this semester's Rider Awards, which are given to members who have displayed exemplary work and dedication for the team.

WHAT DOES BEING ON THE TEAM MEAN TO YOU?

FROM EVAN PALMER-FOLEY, 2ND YEAR MECHANICAL ENG.

"When I came to RIT I knew that I wanted to join one of the SAE clubs to learn more about working on engines and collaborating on large team projects. When I found out about an SAE team that worked on snowmobiles, I was interested so I went to a few meetings and was hooked. In my first year, the clean snowmobile team gave me the freedom and responsibility to manage my own project. I learned a lot and found out that any new ideas for projects were welcome and encouraged.

I also found a great group of people. I have met some of the most genuine and funny people because of this team. Not all problems have a straightforward answer, almost all projects hit a few road bumps, but it only strengthens the bond between team members. Joining the clean snowmobile team is without a doubt one of the best choices I have made at university."

NOTIFICATION

There will not be a December newsletter released in 2022, rather the next edition will be released in January 2023. In the meantime, we invite our supporters to view our webpage, which has been updated with all of our members. This year, we have the largest number of members in the team's history!
